## WHAT IS EDUPUNK?

Edupunk is an educational philosophy and approach that began as a backlash against the traditional education system. The term was first used by teacher Jim Groom in 2008. Edupunk emphasizes a more creative and autonomous approach to education by combining the DIY (Do It Yourself) spirit with technology.

### CORE PRINCIPLES

1. DIY Spirit
2. Leveraging technology
3. Creativity and Autonomy
4. Community Learning

### HOW TO PRACTICE EDUPUNK

1. Learn & teach with open source learning resources.
2. Use Project-based learning.
3. Creating a collaborative learning environment.
4. Use digital tools.

### ADVANTAGES OF EDUPUNK

- Autonomy and Responsibility
- Creative Problem Solving Skills
- Collaboration and Community
- Technology Literacy

# THE BASIC ELEMENTS OF EDUPUNK EDUCATION

## I. DIY

001

- Autonomous learning: We set our own learning goals, find the materials we need, learn & study.
- Creative Approaches: We move beyond traditional textbooks and teaching methods and creatively solve problems and undertake projects.

## 2. USE OF TECHNOLOGY

- Open Source Tools: Take advantage of freely and low cost available online courses, videos, tutorials & more.
- Digital platforms: Share and discuss our learnings through blogs, forums, social media, etc.
- Internet Resources: Learn through a variety of online resources and digital tools.

## 3. PROJECT-BASED LEARNING

- Real-World Projects: We apply and practice what we learn through real-world projects.
- Problem Solving: Develop creativity and problem-solving skills through projects.

## 4. COLLABORATIVE LEARNING ENVIRONMENT

- Group activities: Provides opportunities for us to share our knowledge and skills and collaborate with each other.
- Community Learning: We develop collaboration and networking skills through learning communities.

## 5. CREATIVITY AND AUTONOMY

- Individualized Learning Paths: We learn according to our interests and needs.
- Independent Thinking: We think and learn independently.

## 6. CRITICAL THINKING

- Develop critical thinking: We develop the ability to view problems from multiple perspectives and think critically.
- Self-assessment: We are able to assess and improve our own learning.

EDUPUNK FOCUSES ON ENABLING US TO HAVE  
A BETTER LEARNING EXPERIENCE AND DEVELOP  
THE ABILITY TO SOLVE PROBLEMS  
AUTONOMOUSLY AND CREATIVELY.

The most important elements in edupunk education are autonomy and creativity.

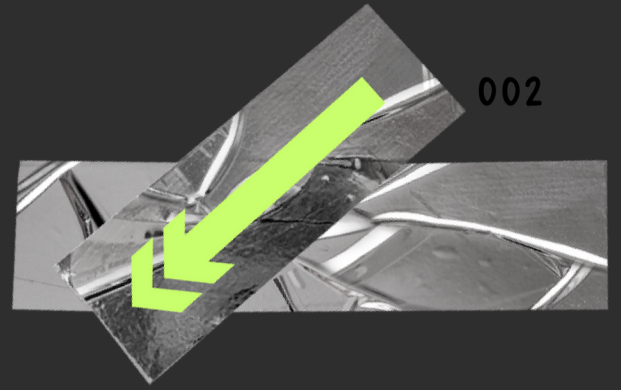

AUTONOMY

- Self-directed learning: Allow students to set their own learning goals and choose their own learning methods and materials. This allows students to take responsibility for their learning and become self-motivated.
- Independent Thinking: Helps students develop the ability to think independently and solve problems.

CREATIVITY

- Creative Approaches: We move beyond traditional teaching methods and encourage students to creatively solve problems and learn in their own way.
- Project-based learning: Allows students to be creative and apply what they learn to real-world situations through real-world projects.

Edupunk focuses on providing an environment where we can learn freely and creatively without being confined to a set framework. We learn and teach according to our interests and needs and develop problem-solving and critical thinking skills.

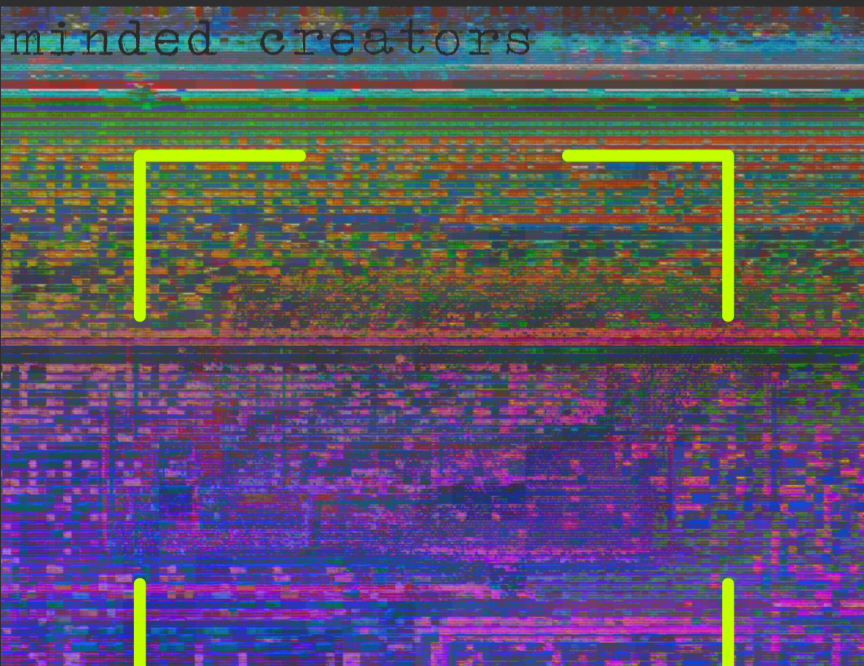

A community.  
for zine,  
poetry & diy.  
learning.

ABOUT

NOEMI

through my art, writing & projects, I reclaim the space that is taken away from magical crip people. By defying societal expectations of who we should be and how we should be, we reshape the narrative and redefine what it means to be a living crip.

I reject the notion of disabled bodies/ crip bodies as objects to be pitied or romanticized. Instead, I present a counter narrative that shows our true selves.

Noemi Ixchel Martínez Turull is a queer femme gq [she/they] crip poet-curanderx writer, historian, and cultural worker existing in the militarized borderlands.

I create resources and zines about accessibility, living in crip space & a crip body, home and what that means.
